The Cole Nursery Co., Painesville, Ohio

New Hardy Everblooming Cole's Fuchsia riccartoni "Scarlet Beauty"

Patent Applied For

(Propagation Rights Reserved)

Words cannot do justice to this plant, nor can printer's ink depict its countless flaming scarlet blooms. Picture to yourself an upright plant having from twenty to thirty stems which at maturity attain a height of 3 feet, and which, from the middle of June until severe frosts, will bear upward of five thousand flowers 1½ inches long, of rose-red, with corolla of mulberry purple and you will visualize that which is the great, nationwide "Plant Sensation."

Fuchsia "scarlet Beauty" can be used effectively in the front of shrub plantings or to face down large screens. Its foliage is far superior to most plants in the hardy border, retaining its glossy, holly-green appearance from Spring until after frosts. In northern Ohio, it withstands frosts until November 15th on the average.

Fuchsia riccartoni, "Scarlet Beauty" is a herbaceous plant which freezes to the ground each Winter after the manner of Butterfly Bush. In the Spring and early Summer it quickly comes up from eyes which form below the surface of the ground, established plants gaining a height of 2 feet or more by the latter part of June.

Most Desirable in the Hardy Plant Border

Because It Gives a Wealth and Period of Bloom

Impossible to Obtain with Any Other Hardy Plant

FUCHSIA RICCARTONI "Scarlet Beauty"

Depression spoiled evergreens in huge quantities are available throughout the country at the buyer's price. NONE are available at Coles. Ours are dense and shapely, they are root pruned, and they are properly spaced to give light and air on all sides. We will be happy to have you visit us and inspect our plant.

ROSES

We add a number of thoroughly tested roses to our collection each year and at the same time eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs. (See Pages 58 to 63).

NORTHERN GROWN ROSES

Our trade recognizes the uniform quality, hardiness, and "trueness to name" of Cole's Painesville Grown roses. We have guarded this reputation zealously and have gone to no end of labor to see that we had an ample crop for our regular customers in the face, many times, of adverse economic, trade, and weather conditions.

We hope you will bear in mind the conditions herein mentioned when selecting your source of supply.

RESPONSIBILITY

We endeavor to send our patrons the grade and quality of stock ordered. We do not guarantee our products or assume any responsibility after they leave our nursery, as conditions always exist over which we have no control. It is understood, in case of error on our part, that we shall not be responsible for a greater amount than the price paid.

TERMS

5% OFF FOR CASH before shipment on purchases at prices listed herein. Be certain to add enough extra to cover packing. This will eliminate C. O. D. costs. Over-payments will be returned promptly.

To parties having satisfactory credit arrangement or account

with us, 2% 10 days, 30 days net.

No claims for rejections or deficiencies will be entertained un-

less made within 10 days after arrival of goods.

5 to 25 of one variety and size will be furnished at the 10 rate, 25 to 250 at 100 rate; 250 or more at 1000 rate.

TRUCK DELIVERIES

During planting season, we are making daily deliveries to Cleveland and vicinity, and frequent deliveries to other cities within 'two hundred miles of Painesville. Charges reasonable.

PLANT PATENT NOTICE — PROPAGATION RIGHTS RESERVED

The Truehedge Columberry is protected by Plant Patent No. 110
under the U. S. Patent Laws. Asexual reproduction or disposition by
sale, gift or otherwise, of scions, buds, or cuttings for such reproduction
is prohibited unless license is previously obtained from the patent owners. Unauthorized reproductions, sale, or distribution of propagation material of this plant will subject the one engaging in the same to prosecution for infringement. For resale at Retail Only except under license from the patent owners.

The above conditions also apply to all other patented plants which

THE COLE NURSERY COMPANY

PAINESVILLE, OHIO

TRUEHEDGE GUARANTEE

Cole guarantees that Truehedge Columnberry plants sold by Cole at prices listed herein will create a formal hedge of height desired at less cost and more quickly than plants of Japanese Barberry twice as large under same conditions (See note below).

To cover this guarantee we will supply sufficient plants (Absolutely Free) for a hedge of the same length, your selec-

tion from Japanese Barberry or 3 kinds of Privet.

THE COLE NURSERY COMPANY, PAINESVILLE, OHIO Note:—A fair comparison using transplanted stock would be—Truehedge 9 to 12" size with Japanese Barberry 18 to 24" Truehedge 12 to 15" size with Japanese Barberry 24 to 30" Labor to be figured at ordinary rates.

In this catalogue where ball sizes are shown, viz., (15" Ball) etc., this is the approximate size supplied. If larger or smaller balls are required charge will be adjusted in conformity with the following schedule.

Where balling is shown as "Extra" or where balls are required on shrubs, trees and plants not catalogued "Balled (B&B)" add to

listed price according to the following schedule.

			Weight	Shr

Ball sizes, weights, etc., are only approximate as varieties and soil causes them to vary.

Prices include loading on trucks.

Car loading on "Tree" sizes entails extra costs.

Platforms, if required, will be charged extra. Charge rebated if returned prepaid.

On New Introductions

• The period of time which has elapsed since the restriction of the importation of nursery stock from Europe has been especially rich in the origination and introduction of new varieties of plants. In the main, these were but passing fancies and have failed to withstand the test of time and only a few are known to the public today.

Of These Tew,

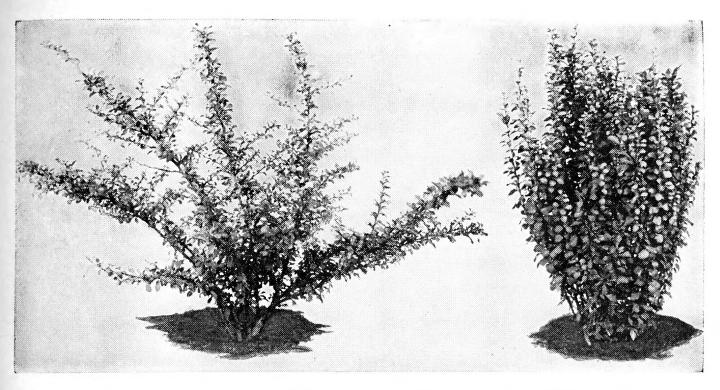

• The most outstanding and worthy of all has been Cole's 1934 introduction "TRUEHEDGE COL-UMNBERRY," which, through merit alone, is increasing in popularity every year.

For a Hardy, instantly finished hedge,

• Use "TRUEHEDGE COLUMNBERRY" — the hedge which is the model of thriftiness, hardiness, and adaptability.
